[PRÉSENTATION]

THE DESIGNERS

The french designer Thomas Sauvage studied civil engineering and industrial design. He is specialised in the design of outdoor furniture and became a cofounder of the EGO Paris company. He has been in collaboration with Dolce Vita since 2005.
His inspiration come following the project he work on but being almost exclusively a furniture designer makes him curious about many fields of creativity and architecture is undoubtedly one that can tease his inspiration. He has been honoured with a "Red Dot: Best of the best".

Bellaires collection: Amore / Anita / Ernest / Primavera / Amore / Giulia / Horizons / Livia / Palmarola / Vespa / Agate / Lips / Movida / Bali / Leaz / Maya / Milos / Motu / Net (...)

Graduated from l'E.P.I.A.R (Arts Décoratifs) in Nice, major in Design, and got the honors in Scénography. Space designer, Sandrine Latour first specialised in ephemeral architectures (theater, showroom, exhibition space, ...) Today she broaden her field of intervention to object design with the same requirements of creativity, elegance and poetry in the forms.
She has been in collaboration with Dolce Vita since 2015 as the creative director for our collections and events. She also designed our range of accessories.

Bellaires collection: Table Mat / Napkin Holder / Tray

Created in 2013 by a creative quartet, The design agency MESSIEURS has established itself as one of the leading players of creation on the luxury market.
From the brand identity, the communication as well as product design and retail store design, this collective of creative
people work intuitively in order to ensure optimum satisfaction to there customers, while also respecting there values and DNA.

Bellaires collection: Vela

Caroline Ziegler and Pierre Brichet met as they were part of Collectif Dito. They founded the Studio BrichetZiegler in 2010.
The design duo built up through exchange and dialogue to make an open think tank, where poetry, materials and forms express with sensitivity. They collaborate with several furniture and lighting companies, and work on industrial projects and interior design.
They were awarded the VIA Project Assistance grants in 2011 and 2012, and the Bourse Agora grant in 2007 with Collectif Dito.
In 2018, they are awarded Grand Prix de la Création de la Ville de Paris.
Bellaires collection: Pop

Passionate designer, Thomas De Harbe seek emotion through design. He love the freedom to create with her imagination as only limit. Originally from Nice, he studied in Nice and Paris.
He hold a BTS and Bachelor's degree in Product Design, a certificate and a Master's degree in Transport Design.
Thanks to her background, he is versatile and open to all creative concepts.
Diversity and open-mindedness are essential in her profession.
His aim is to respond to a need, to create something that makes the consumer's daily life easier, and to make the object aesthetically pleasing.
overall vision of design is summed up by form, function and aesthetics
Bellaires collection: Helios

[I - F L Y]

Easy Change is a unique system that allows you to remove and replace any board individually in any part of the floor using a special Key. No need to use any nails, screws, drills or spacers to fasten the boards on the understructures. its design allows the self alignment of board joints. The Easy Change systems helps ensure a quick, simple and trouble-free installation.

HOW DOES EASY CHANGE SYSTEM WORK?

Easy Change is comprised of an aluminium substructure which comes with prespaced special rotating nylon cams. Decking boards are then locked in place with a simple turn of the EasyKey.

WHAT ARE THE HIGHLIGHTS OF EASY CHANGE SYSTEM ?

- Remove and replace any decking board from anywhere in the floor.
- Up to 50% faster installation compared to traditional deck building
- Quick access for inspection/cleaning under the deck
- Doesn't cause water stagnation under the deck

Increased structural integrity and strength

AVOID WATER STAGNATION UNDER THE DECK

The unique design of the nylon clips of the decking systems avoid contact between the aluminium profile and the ground, allowing the substructure to be laid in any direction and letting the water flow under the decking.

FASTEST INSTALLATION SAVE TIME ! SAVE MONEY!

Our decking systems are designed to speed up deck installation times. In most cases up to 5 times faster!

ETHERNO CARBONIZED BAMBOO

Bellaire is caring deeply about developing Green and Eco-Friendly solutions. This has led to the sourcing of ETHERNO: the decking solution made of Bamboo boards (100% bamboo) combined with our Easy Change systems. Bamboo grows much faster than any tree and is among the most prolific resources on earth. Through a specialized process of compression and thermo treatment, ETHERNO provides Strength, stability and durability.
